Tempe News Notes

WILBUR RESIGNS TEMPE NATIONAL

Cashier of Tempe Bank Resigns to Accept Similar Position in Indiana—J. E. Peck Appointed to Fill Vacant Place.

Walter H. Wilbur, cashier of the First National Bank of Tempe since it was established in the year 1901, has tendered his resignation, and with it becoming effective today will leave shortly to enter into a new field as cashier of the Crystal Lake State Bank of Crystal Lake, Indiana. J. E. Peck, during the last seven years assistant cashier of the Tempe National, has been unanimously elected to fill the vacancy, and he will take active charge of the bank with the opening of today's business.

It will be with considerable regret that Tempe people will learn of Mr. Wilbur's resignation. Since the organization of the bank when he was elected cashier he has contributed unstintingly to the advancement of the institution and the splendid condition it is in today and the vast amount of business it is daily carrying on, can be traced back much to the personal effort of Mr. Wilbur.

Wilbur sees a greater field ahead of him in the banking business at his new location in Indiana and after visiting there last summer it was with pleasure that he recently received the information of his appointment to cashier of Crystal Lake's largest banking house. Wilbur will take up his new work in Indiana on the fifteenth of this month.

The selection of Mr. Peck to the position of cashier of the Tempe National will undoubtedly meet with the highest approval by the many customers of the institution. During his seven years as assistant to the job that he is today taking over, Mr. Peck has acquainted himself with all the ins and outs of the position as cashier and is prepared to assume his new duties with a fine working knowledge of all that lies within his scope of work.

FOR RENT—Four room cottage. El-Hamilton Bros. Tempe. (adv.)

COTTON GIN OPERING

The Tempe cotton gins will be in operation about the middle of this month if present prospects hold good, according to a statement by J. W. Williams, chief ginner, last evening. Williams has started the overhauling work in the plant this week and from now until the season run opens a crew will be at work remodeling, repairing and tuning the plant into shape.

FIFTEEN DAYS TIME

Fifteen days for drunkenness and disorderly conduct was the fine imposed upon Charlie Nelson by Justice Austin. Nelson was arrested night before last and after pleading guilty when arraigned yesterday morning, the judge, immediately sentenced him to fifteen days in the county jail at Phoenix. Constable Estrada escorted the man to his new home in Phoenix yesterday afternoon.

DR. HIGHT, Veterinarian, Tempe. Adv.

TO ATTEND COLLEGE

Harry Newton left last evening for a short vacation on the coast and at the exposition. From there he will continue on to Fort Collins, Colorado, where he will attend an agricultural college during the coming term.

WILL SPEAK AT PALO VERDE

Glenn Teeter expects to leave this morning for the Buckeye country where he will spend the remainder of the week. He has been invited to preach at Palo Verde next Sunday evening and it is also likely that he will fill the pulpit in Buckeye that morning.

PEOPLE AS BIRDS

A youngster hired to shoot birds at the rate of five cents each, in an orchard in Sotello addition, yesterday afternoon badly frightened a nearby family by his careless shooting. Bullets began sizzling by in close proximity to the house, and action wasn't taken too quick to divert a possible fatality. The youth was severely reprimanded and has concluded that he'd rather earn his "jitneys" in other ways than those which will endanger people's lives.

DOWN FROM CAMP

Jim Davis is spending a few days in Tempe from his ranch near Fort McDowell.

GIRLS! BEAUTIFUL, CHARMING HAIR.

NO DANDRUFF—25 CENT DANDERINE

Try this! Doubles beauty of your hair and stops it falling out.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Returning Tempeans

The Daniels, Bailey and LaMont auto parties returned to Tempe night before last, convinced that there is no better place than northern Arizona to spend a summer's vacation. The party of three machines including as members, Mr. and Mrs. J. H. Daniels and son, T. A. Bailey and family with Mr. and Mrs. Frank LaMont and family left here the middle of August for the Grand Canyon and other scenic points in the north by the way of Prescott. Their trip was enjoyable throughout. At Mary's Lake near Flagstaff, where they spent a week, seven Tempe machines were in camp and there were a host of other parties there enjoying the novelties of the camping ground.

President A. J. Matthews of the Tempe Normal school, returned to the valley yesterday morning after two weeks spent in California, principally at Oakland in attendance at the National Educational convention. Professor Matthews states that the convention was an unprecedented success from start to finish. After a glance over conditions on the campus yesterday morning, Mr. Matthews was happily positive that this year will be an epoch in normal history, and he predicts a large increased attendance.

By chance, Principal Ira D. Payne of the training school, met President Matthews in Los Angeles night before last and made the trip to the valley with him. Professor Payne has spent the summer with his parents at Morgan Hill, California.

Mr. and Mrs. L. V. Stewart returned to Tempe yesterday morning from their summer vacation spent at San Diego. Miss Anna Stewart, who will have charge of the domestic science department at the normal next term, also returned from California, to resume her work here.

Hugh Lalra returned to the valley yesterday morning from his month's vacation spent in Los Angeles.

After a pleasant two week's outing at Prescott, John B. Birchett and family returned to their home east of Tempe yesterday morning. They made the trip both ways by machine.

Mrs. A. Clark and mother, Mrs. Ross, have arrived in Tempe from Kansas where they spent the summer. Mrs. Clark's son, Clarence Clark, also returned to the valley yesterday morning from his month's vacation spent at the exposition.

Miss Hettie McNary, a sister of Dr. O. C. McNary of Tempe, is expected in this morning from the coast en route to her home at Canonsburg, Pa.

Professors F. J. Jennings and E. A. Bow of the high school, arrived in Tempe yesterday afternoon from their auto outing through the White Mountains and through northern Arizona. They left the valley shortly after the close of school and spent the first month in the White Mountains. Later they continued on into Flagstaff, Holbrook and other of the northern Arizona towns.

Miss Myrtle E. Rice, supervisor of music in the Tempe city schools, Merion Rice, assistant principal at Chandler this coming year, and their mother, Mrs. Rice, returned to Tempe yesterday morning from Prescott where they have spent the summer.

Mr. and Mrs. G. A. Goodwin and Miss Edna Carr returned to Tempe yesterday morning from San Francisco. En route home they spent a few days at the San Diego exposition.

IMPORTANCE OF THE CORN CROP

Corn is king of all the crops. More than 20 per cent of all the improved farm land in the United States is annually devoted to the growing of corn. In 1914 105 million acres were planted to corn in this country, producing 2,700 million bushels, which brought the growers 1,900 million dollars. For nearly fifty years the land planted to corn has been equal if not greater than the acreage of all other cereal crops combined.

Corn from a standpoint of acreage yield and value exceeds every other crop.

Wherever corn is grown, there you find high priced land and prosperous people.

No other crop can replace corn, but corn can readily take the place of any other grain crop.

Corn is put to a greater number of uses than any other crop that grows.

There are greater possibilities for improvement, yield and quality of corn than any other crop.—From a lecture by P. G. Holden.

Mesa News Notes

RETURNS FROM EASTERN TRIP
W. N. Amos returned today from a trip of several weeks' duration. He started from Mesa in his car, going by way of Clifton and then to El Paso where he left the machine and continued the journey eastward by rail. After spending two weeks at Hot Springs, Arkansas, he returned again to El Paso and resumed the homeward trip in his machine. The only trouble encountered on the trip was a broken axle which delayed him two days at Tombstone. Mrs. Amos and son who have been spending the summer in California returned home Monday, preceding Mr. Amos about twenty-four hours.

CONDITION IMPROVED

The condition of Mr. Horne who has lain in an unconscious condition at the South Side Hospital since Monday morning as a result of a fall from a horse shows quite encouraging improvement. His pulse and respiration are normal and at times he seems to have partly regained consciousness so the doctors are hopeful of his early recovery. It was thought for a time there had been internal injuries but now it is known for a certainty that there are none.

ARRIVE SAFELY

Dr. A. E. Stoner and Judge Kingsbury who left some time ago by auto for Flagstaff have arrived safely at that place. They report a rough trip, due to the rains, through the mountain route via Roosevelt and Pine.

LEASES HOTEL

Mrs. Emma Ellsworth has leased the hotel at Fish Creek and will take possession on September 1st. Fish Creek's location, midway between Roosevelt and Mesa, together with Mrs. Ellsworth's wide acquaintance and reputation as a maker of appetizing dishes will mean success for her.

VACATION BENEFITS MR. WASHBURN

Word has been received that C. T. Washburn, member of the A. and B. grocery firm, who left for the coast some time ago on a vacation, is much improved in health.

LEAVES FOR VACATION

Miss Elsie Jones is taking a well earned vacation of two weeks from her duties at the South Side Hospital. She left yesterday for Flagstaff where she will spend the time.

MOONLIGHT PICNIC PLANNED

The young people of the Methodist Sunday school have all the plans made for an auto truck trip for this evening to the desert on East Roosevelt road. Generous lunches will be taken along and all are looking forward to a good time.

RETURNS FROM COAST

C. L. Hawley, B. J. Johnson and Chas. Johnson arrived from the coast Monday evening in the latter's car. They made the trip in two and one-half days, which is record time considering the condition of the roads. Three hundred miles was made one day over the worst part of the route.

HOME FROM COAST

Mrs. C. E. Cannon returned yesterday from her visit at the coast.

AT THE COLISEUM TONIGHT

The offering at the Coliseum for tonight will be the play entitled, "The Inside of the White Slave Traffic," by Samuel H. London, the international white slave investigator. This play is endorsed by pulpit and press as the strongest play yet produced on this vital subject.

DAVID HAREM AT THE MAJESTIC

This rural play founded on the story by Wm. H. Crane is full of wholesome wit and strong moral teachings throughout. It is one of the plays that is always worthy of another attendance.

MESA CORRESPONDENT

The Mesa column of The Republican will be handled from now on by Albert Tone. Mr. Tone enters on his duties with this morning's issue and will gladly receive news items left at the Commercial club rooms.

RETURNS HOME

Miss Frances Held who has been visiting for the last month with her sisters, Mrs. C. H. Bowers and Mrs. James Marr left yesterday for her home at Del Rio, Texas.

NEW ARRIVAL

Mr. Norris, a brother of Mrs. J. W. Washburn, arrived in Mesa Monday from Washington. He made the trip of over two thousand miles by wagon. Mr. Norris will come through by train later when they will make their home here at Mesa.

RETURNS FROM FAIRS

Sam Swift who has been doing the fair at San Diego and San Francisco, returned yesterday. He also visited other points of interest in California.

HIS MESSAGE

Farmer Shack—You say you went through an agricultural college? Then you must know all about nitrates? Stranger—Sure thing! Where did you want to telegraph to?—Boston Globe.

More than 2,400 books have been printed in Esperanto, the universal language. There were only 29 of these books in 1889.

ON THE THEME OF MORE LIGHT

Statement by Trustees of Electrical District No. 1, Replying to Arguments Which Have Been Made Against Bond Issue.

The following statement has been issued to the voters of Electrical District No. 1, by the trustees of the district, who will be called upon to vote tomorrow on a \$100,000 bond issue, for the construction of an electrical system. The statement is in reply to one printed in The Republican yesterday and to a letter which has been issued to the voters:

The Pacific Gas and Electric company is trying to get the same "strangle hold" upon the farmers that it has upon the city of Phoenix. There will be mailed or delivered to each person living in the Electrical District a lot of figures purporting to be estimates of the cost of construction, maintenance, etc., of the proposed farmers' Electrical System, every figure of which was compiled in the office of the Pacific Gas & Electric company. These figures will be signed by a "committee of respectable men, whose names would carry weight," six of whom are not on the tax roll for any property within the Electrical District. The "competent electrical engineers" referred to are, however, all connected with the Pacific Gas & Electric Co.

The Pacific Gas and Electric company admits privately that it had 75 miles too much transmission lines in its estimates.

The Pacific Gas and Electric company admits that it placed the depreciation period at 5 years too short a time in its estimates.

The Pacific Gas and Electric company admits that it counted the cost of meters at \$7,500 too much in its estimates.

Admits that all figures of income and expenditure are based on the operation of city plants, which cost much more to operate than farm lines.

The Pacific Gas and Electric company admits that it used a minimum of income from every source and that it used a maximum of expenditures on every item of expense.

These admissions will enable you to place an accurate estimate upon the remainder of the figures submitted to you by the "committee of respectable men, whose names would carry weight."

It is the influence of the Pacific Gas and Electric company and its money which has lost this whole move against the putting in of this farmers' Electrical System. Will you permit the Pacific Gas and Electric Company to dictate to you what you shall do or will you, as free men, stand up and assert your rights to conduct your affairs as you please without the dictation of this grasping corporation?

The fact that this letter will be signed by well-known business men is a most clever attempt on the part of the Pacific Gas and Electric company to conceal its "cloven hoof."

The figures of the Pacific Gas and Electric company are based upon an assumption of facts which do not exist.

You may be told that the Pacific Gas and Electric company was requested to supply these figures by the "committee," but the fact remains that the figures were all ready the moment that they were "called for."

The managers of the Pacific Gas and Electric company, for weeks been trying to get the managers of this farmers' Electrical System to agree to some terms which would betray the rights of the farmers, but the trustees have refused every offer made by the Pacific Gas and Electric company and that is why they are now sending you these figures and raising this howl about high taxes.

The figures furnished by the trustees of Electrical District No. 1 have been worked out through months of careful study and can be relied upon; they were prepared in YOUR INTEREST. The figures submitted to you by this "committee of respectable men, whose names would carry weight," are prepared by the Pacific Gas and Electric company for its benefit.

Which are you willing to rely upon?

The manager of the Pacific Gas and Electric company was the first person known to suggest that the "farm people should be told that there were errors in our estimates," and that the taxes of the people would be "very high," yet the manager does not live in the Electrical District and is not assessed with one dollar of property in the district.

It was not taxes, but the loss of an income at 10 cents per kWh. that is hitting the Pacific Gas and Electric company. They want to collect a double toll of the farmers, and make you build the lines, as they have done in all cases where lines are built in the country, will you let them do it? Isn't your burden of upkeep enough now?

Ask yourselves when did the Pacific Gas and Electric company ever do a good turn for any one but themselves?

The statement "signed by respectable men, whose names will carry weight," will probably be accompanied by a letter or statement from "Electrical Engineer of the Reclamation Service," who has always been opposed to the farmers having the use of the electricity generated at the dam for any purpose. Watch for it.

The life of cedar poles agreed to by the Pacific Gas and Electric company before the Electrical Commission and on file in the office of the Commission, is placed at 20
